Sell not virtue to purchase wealth, nor liberty to purchase power.

Opportunity is the flower of time ; but as the stalk remains when the flower is gone, so time will remain when opportunity is gone forever.

The principal points of this Catalogue are:

- FIRSTLY.**—Remarks on our system of doing business, with especial features.
- SECONDLY.**—Descriptions of all the goods we manufacture, with exact illustrations.
- THIRDLY.**—The prices place every article, that serves to adorn, embellish, and of practical household use, within the reach of every person in the land.
- FOURTHLY.**—We cordially invite minute examination in detail of everything, with the firm belief of their merits being recorded, in a unanimous endorsement by the public.

Since thou are not sure of a minute, throw not away an hour.

It is less discredit to abridge petty charges, than to stoop to petty gettings.

Hast thou virtue? Acquire also the graces and beauties of virtue.

Eat to please thyself, but dress to please others.

PROSPECTUS.

To our Customers.

OFFICE OF THE
FRANKLIN JEWELRY COMPANY,
704 CHESTNUT STREET,

PHILADELPHIA, PENNSYLVANIA.

In issuing our regular Fall and Winter Price List, we embrace this opportunity to express our sincere thanks to our patrons throughout the United States, Mexico, and Canada, for their appreciation of our efforts, with their generous patronage extended to us during the past eleven years.

It is with a just sense of pride and encouragement that we present this issue to our customers, a far superior arrangement to any other efforts previously made, as we have taken into the greatest consideration the depressing effects produced by the deplorable condition of the business interests in general throughout the old and new world for the past year.

The *immense decline in values* of all classes of merchandise and property has, as a matter of course, carried along with it the *lowering of prices in Jewelry*, and it gives us much gratification to have the chance to promulgate it in this issue.

Our desire has been to please and be of benefit to our customers in filling their orders, and it is a source of *congratulation* to us to record the liberal increase which has attended our business.

In the specification of the various goods herein enumerated, *we would ask especial attention to the great reduction of the prices*, as well as the superiority of the designs and largely augmented quantities. From our past experience, we find the introduction of our *special outfit system* has given general and universal satisfaction, and in no instance has a complaint been made of any deficiency or inaccuracy.

We have therefore felt encouraged to make new compilations, *for our outfits and list of cases*, with just mention of their merits accompanying them, and can give the amplest and fullest assurance of their intrinsic value to all desirous of becoming *Merchants, Traders, Pedlers, or Agents*.

We are always ready to cheerfully furnish any desired information, and *guarantee what we represent*.

Faithfully submitted,

Address all orders to **FRANKLIN JEWELRY CO.,**
PHILADELPHIA, PA.

Never intreat a servant to dwell with thee.

Search others for their virtues, thyself for thy vices.

Wink at small faults; remember thou hast great ones.

Time is an herb that cures all diseases.

REMARKS TO AGENTS!

HOW TO MAKE MONEY

— AND —

HOW TO GET WEALTHY,

Is a conception that employs the attention of the human mind among the family of all nationalities. Nearly as much, and with all due consideration, if not more so than any other matter, it is the subject that generally, if not universally, springs to the front.

We hope that in our desire to assist you on your way to easy circumstances we will be appreciated, and the suggestions which we herein present may be of incalculable service to young beginners in business.

It is an old and true saying "that no matter what we do, do it well," and that "a poor business followed up well, with pertinacity and energy, is better than a good business badly conducted." Therefore we would particularly urge upon you the necessity of prompt decision and quick action, for the lack of these virtues many permit chances to slip which would enrich you.

We present the following as a safe guide for all sound minded people to abide by:

In going into any undertaking try and obtain all the information you can on the matter, and then give it a careful and due consideration. Then if your mind is in favor of it act on your judgment, and act promptly and with all your might and main, and in nine hundred and ninety-nine cases out of a thousand success follows. This axiom is what makes our large business men so successful, and can be safely adopted by all.

A person who means business, whose aim is to rise in the world by his own individual efforts, must be on the lookout for his chances, and never permit one to escape him unimproved. Let us assure you it will never do for a person who means to do anything in the world to toil out at day labor year in and year out.

Such people never become wealthy, never advance above their narrow sphere of eating, drinking, and living, but much rather follow such work only long enough to get a chance to go a step higher. Be not ashamed to begin at the foot of the ladder, but be ashamed to stay there. There is room at the top, the bottom is crowded. Toil your way up,—yes, fight your way up, inch by inch, step by step, and when you reach the top you will have the proud satisfaction of knowing it was you that done it and by your own exertions. Some people, it is said, are born lucky, but allow us to impress on your mind that the good fortunes that follow such are not brought about by mere chance, but almost universally by their own exertions. The fact of the matter is, they look out for and improve the chances.

Present us to a person who is willing to engage in any honorable business where there is fair prospect of success, who is willing to toil with patience, and that person is sure to win success, if his efforts are only directed in the right way. Never idle away your precious time, for when it is gone it is gone forever, and recalling it is impossible. But out of all the chances that are offered, after a due consideration, select the one in which, according to your judgment, you can succeed in best, and stick to this occupation until a chance presents itself to do better. Follow this and no one of good common sense can fail. We care not how slim the chances are, or how slight the start may be, rely on it, you will come out with flying colors in the end. In conclusion one suggestion we have to make however, and that is, that whatever business you undertake should be perfectly honest, respectable, and legitimate.

Without these necessary virtues it will be of little purpose to pursue it, for ill-gotten gains are not lasting, and He who rules the destinies of all worlds will not suffer that prosperity to be permanent which springs from unlawful sources.

Wish a miser long life, and you wish him no good.

If any man flatters me, I'll flatter him again, though he were my best friend.

As we must account for every idle word, so we must for every idle silence.

If thou hast wit and learning, add to it wisdom and modesty.

CIRCULAR TO AGENTS.

On the following pages we lay before you a regularly arranged schedule of our business.

The arduous labor connected with this branch of our business, to produce a *well selected assortment in every particular*, is in every way commensurate with our endeavors to further the best interests of our numerous customers, and is intended to give you the necessary instructions, not only as to the values of the thousands of articles of *beauty and value* always to be found in our stock of Jewelry, but also fac-simile illustrations of a few of the same, so that at a glance the Agent can select such varieties as will be, in his opinion, to advance his success; and also to answer all your inquiries regarding the terms and conditions which we employ Agents. Therefore, if it is your wish to engage in a *healthy, profitable, and legitimate business*, you will read this *letter to Agents carefully*, otherwise it may cause you regret.

Having been long in the business of supplying Agents and giving steady employment to a large number of ladies and gentlemen in all sections of the United States, Mexico, and Canada, we are enabled to *know precisely what honest, persevering Agents want*.

1st.—*They want goods of real virtue*, that will stand the test of those who examine them expressly for the purpose

2d.—*They want articles, a love for which is implanted in every bosom, articles of beauty*, and within the means of the poor as well as the rich.

3d.—*They want articles that are popular*.

4th.—*They want articles that they can sell cheaper* than people are in the habit of buying them, and still make a *large profit*.

Knowing this to be the desire of every honest energetic canvasser, we have selected such articles as will meet the wants of all who *make their money in a speculative way*. Hereafter we shall devote our whole time and energy to the manufacture of such goods as our past experience has taught us are the best for live canvassers to make money with.

By referring to the following pages in our Price List, you will see that we have divided our line of goods into classes, so that Agents can, at a glance, select such goods as will be best *adapted to the locality and trade* that he desires to secure. If his trade lies in sections of the Southern States, where the colored race forms the greater part of the population, who have a natural, instinctive love for Jewelry, and are prone to indulge in it, the Agent can see that any of our Cases will be the best line to order. If your trade is with shop girls, servant girls, laborers, or that class of people, Cases 5, 6, 7 will be found very desirable. Again, if your trade is with those who are unable to purchase Jewelry at the high priced city stores, you will find the same articles in our special outfits, identical in *design and finish*, and only to be detected from the high priced article (and our goods are often sold by the city stores for the genuine article) by the practiced eye of an expert jeweler with the aid of the finest balances and acids.

Some Agents who have not heretofore dealt with us, and consequently are not familiar with our *styles of Jewelry*, may desire, before ordering whole cases of goods, to obtain *samples of the goods* contained in the different cases and special outfits. For the especial convenience of such, we put up a *box of samples* of the different cases at the *same proportional rate* as given for the whole case (these samples are the same in every respect as the lot from which they are taken). We will not send a smaller quantity than a box of samples. This rule we will not, in any case, deviate from, as our object is to *protect our Agents* in their trade, for you will very readily perceive that if all (we mean those who are not Agents, and do not desire to become Agents) can obtain our goods by the single piece at our Agents' wholesale prices, the occupation of our Agents would be small indeed. You will find the prices of these sample boxes at the bottom of the page of each case and special outfit.

Let thy vices die before thee.

Keep your eyes wide open before marriage, half shut afterwards.

You may be more happy than princes, if you will be more virtuous.

For want of modesty is want of sense.

Synopsis of the Great One Hundred Dollar Outfit.

To *this grand package* we invite our patrons to give the greatest consideration, and to *read it over* several times in order to comprehend the arduous labor occasioned in compiling such a *grand array of valuable merchandise*, and to which we attribute our claim as

The Great Representative Jewelry House of America.

It contains three hundred and seventy-eight (378) pieces of *useful and desirable merchandise*.

The *Watches*, of which there are six (6), consist of:

One Solid Gold (warranted) Ladies' Hunting Case Watch, retailing at \$35.00.

One Solid Silver (warranted) Gent's Hunting Case Watch, Elgin movement, retailing at \$25.00.

One Silver Gent's Hunting Case Swiss Lever Watch, retailing at \$20.00.

THREE Genuine Oreide Watches, retailing at \$15.00 each.

The aggregate prices of the six *Watches* alone amount to \$123.00.

The general assortment of Jewelry and Fancy Goods is the most complete that can possibly be produced, and we can give the assurance that with such a stock it is beyond the possibility for any one to fail in realizing fourfold the cost of the outfit.

We recommend this magnificent package to all Agents, Traders, and Pedlers.

A ring tray (velvet-lined) for six (6) dozen rings accompanies the outfit. Comments upon its great merits are unnecessary to any one who will carefully study its details, as there is a sufficient stock of merchandise for any agent to realize five hundred dollars (\$500.00) therefrom within a month's time well applied.

NOTICE.—The grand One Hundred Dollar Outfit No. 3, complete, is contained in an elegant *white wood* casket (fifteen inches long, ten inches wide, eight inches deep), with sliding lid. All the goods are put up in fine white silk tissue paper, in separate smaller boxes, and each article is numbered. An inventory of the contents accompanies the same.

This outfit, No. 3, is SENT ONLY IN COMPLETE FORM as enumerated, and forwarded by Express to any address AS PER OUR FIXED RULES IN ORDERING GOODS.

Extra Gold Rolled Plate JEWELRY.

In the following pages it affords us gratification in laying before our many customers illustrations of the complete line of *Extra Gold Rolled Plate Jewelry* we are now manufacturing expressly for agents' trade. Its completeness surpasses all our former efforts, from the fact of the great decline in the premium of gold coin (now almost at par), together with our immense facilities, as well as the deteriorated cost of skilled labor, permits us to offer such rare inducements to facilitate our agents to the sale of a much finer quality and elegant style of Jewelry.

We have appended the *number and price* of each article, together with the illustrations. *To avoid any possible mistake in sending your orders, mention the number and price of the article desired,* and page of the price-list. We can give every one the positive assurance that each article enumerated under the head of "ROLLED GOLD PLATE JEWELRY" is of a durable and excellent quality and finish, for which we hereby give a guaranty. We insist upon all and every one receiving any article not to his or her perfect satisfaction, to have no hesitancy in notifying us thereof, as due reparation will be made at once.

We request every one desiring to become agents for our "Gold Rolled Plate Jewelry," to order any article they may desire for inspection (which we will send on receipt of price), and when upon receipt of which they find our guaranty verified as to quality and finish, we will allow a *special discount* of twenty (20) per cent. on all orders for one dozen (12) pieces of *any one particular article*.

Every piece of our "Gold Rolled Plate Jewelry" comes neatly done up in pink cotton, in an elegant white linen paper covered casket, with gold band edges.

And for the especial benefit of our large *purchasing agents*, we have manufactured an elegant genuine *Morocco Leather Jewelry Trunk*, fourteen inches long, ten inches high, eight inches wide, containing seven (7) velvet-lined trays, with compartments for the full assortment of all kinds of our Gold Rolled Plate Jewelry. This trunk is the most elegant arrangement possible to display the entire line of goods before your customers, and gives your avocation tone and standing. The price of one of these trunks is Ten Dollars (\$10.00).

Description of the Alaska Diamond, the best imitation so far produced in the World, also known as the "Hot Spring Diamond."

ARTIFICIAL DIAMONDS.—Many pastes have been devised for the preparation of these beautiful stones. None have been able in their products to equal the natural diamond in hardness and brilliancy; but nevertheless, to an unpracticed eye, the imitation is so perfect that the difference cannot be distinguished.

The ALASKA DIAMOND, a homogeneous substance found in different districts of North British America, and in Hot Springs, Arkansas, is a mineral product which has great brilliancy and refractive and dispersive powers, and also a specific gravity similar to that of the oriental diamond. It fuses at a moderate heat, and acquires the greatest brilliancy when remelted and kept for two or three days in a fused state, in order to expel the superabundant alkali and perfect the refining.

REAL CELLULOID CORAL JEWELRY.

WARRANTED SUPERIOR TO THE ITALIAN CORAL.

Tulip Set—Price \$2.00.

Rose and Leaf Set—Price \$3.00.

Sent to any address on receipt of the price.

In this and the following pages we present a choice selection of **Celluloid Coral Jewelry**. The material is the product of American genius, and the manufacture is exclusively domestic.

Many have spent a life-time to produce artificial diamonds, others have ruined their mental capacity trying to invent a substitute for gold, but success has never crowned their efforts.

The invention of Celluloid Coral, and its manufacture into Jewelry, marks a new era in Coral goods. Until recently the Italian Coral has been imported, and we have all paid exorbitant prices for it. Now the sale of Italian Coral is at a standstill, the Celluloid having superseded it, for the very substantial reasons that it possesses greater strength, and the colors are finer and more uniform, there being no poor colors as in the Italian. In short, its strength, beauty, durability, and moderate cost, commend it to the public, and guarantee it a place in the jewel casket of every lady.

The demand for these goods is even now greater than the supply, but, owing to special arrangements which we have made, we shall always have a large and complete assortment, and be able to fill all orders promptly.

THE WONDERFUL ***PARISIAN BRILLIANTS,***

The Most Perfect Fac-simile of the Real Diamond in the World.

These beautiful stones, so popular in the courts of Europe, where they are daily worn in close comparison with the most valuable and recherche diamonds, are now first introduced into the United States by us. The body of the stone is of the **clearest Crystal, coated with pure Carbon**, the substance of which the real diamond is composed, and for *wear, brilliancy, and beauty*, they are as desirable as the *veritable gems themselves*.

In the following pages, we give illustrations and prices of the different styles and settings of the very best quality of *rolled gold plate*, expressly manufactured for the *Wonderful Parisian Brilliants*.
